2016 Seed Family Tree

At press time, several mergers were underway pending regulatory approval. Dow and DuPont’s proposed merger is valued at $130 billion, and government-owned ChemChina’s $43 billion acquisition of Syngenta has been accepted by the company. The Seed Family Tree shows current corn, soybean and cotton seed brands owned by the companies represented.

### Monsanto
- Established agriculture division in 1960; becomes total life sciences company in 2000
